# About Us

Fabrotech is an India / Saudi Arabia-based, international construction services company and is a leading builder in diverse market segments. The company has earned recognition for undertaking large, complex projects, fostering innovation, embracing emerging technologies, and making a difference for their clients, employees and community.

**Fabrotech** is an emerging contracting company, committed to the consistent provision of comprehensive, professional Civil/ Structural & electro-mechanical service providers in the whole range of EPC projects from small to large corporate, industrial and private clients. Its turn-key operations include the design, construct, supply, installation, testing, commissioning and maintenance for a diverse range of construction projects. Each stage of every project is managed by an experienced team of professionals specialized in the required technical discipline, hence ensuring each project is completed and handed over on time, budget and quality.

**We** specialize in executing construction from initial substructure stage to super-state culture, which includes foundation, excavation, level leveling , Parallel in associated with MEP for design, supply, installation, testing and commissioning of HV and LV electrical, HVAC, Plumbing and Fire Fighting services, in a wide range of industrial, commercial and residential projects.

Fabrotech holds a Grade-1 Electrical License, issued by the electricity authorities, which permits us to work on any electrical project in the Kingdom of Bahrain, and places no limits on the system voltages and electrical loads within which we are permitted to work.

# Our Services

Fabrotech Contractors is a leading international General Construction & Fabrication. A Reliable contractors with well-established supply chain management with a unique in-house capabilities of engineering team and full-fledged project management architectural design and build that archives premium quality finishes at the best value proposition. Fabrotech Contractors enjoys extensive in-House capabilities including in-house Fabrication team, MAP team, Value Engineering and project Management Office with well-established supply chain Management to set the company's aptitudes beyond conventional contractors' capabilities.

Fabrotech provides all required for implementation of Communication and Information Technology consulting and professional services in Lao PDR. We deeply provide construction, installation and management expertise in IT for businesses, government, and institutions.

**Archineer IT was established for the goal of providing smart it solution include:**

- ✔ Building Construction
- ✔ Electrical Work
- ✔ Plumbing Work
- ✔ HVAC
- ✔ Fire & Safety work
- ✔ Epoxy floor & building painting
- ✔ Steel structural fabrication & Installation
- ✔ Abrasive blasting, painting & galvanizing
- ✔ Warehouse & racking solutions
- ✔ Industrial Mechanical & maintenance services
- ✔ Motor & Machineries repair, rewinding & maintenance services
- ✔ General & industrial trading

# What we do Better Business

## Civil Services

We are with a wide experience and sizeable portfolio of Civil & MEP projects completed for private clients in the past and we look forward one step ahead towards in the Future.

We undertake a variety of projects for a wide range of clientele- from small private developments to large residential cum multi-storey, warehouses projects. Our unique and flexible project constructability systems ensure that a positive outcome is achieved regardless of size or nature of the project.

The Range of services offered comprises the following:

01

Completed building construction which includes private luxury villas, residential cum multi-Storey buildings, commercial complexes, warehouse and car parking.

02

A good working knowledge of construction methods, materials and legal regulations Hands on experience in sub-structure & super-structure erection which includes: Preliminaries, earthwork, foundation, finishes, Wooden/Carpentry and finishes etc.

03

Expertise in Office built-outs, renovation and expansion, flooring and car parking.

# Mechanical & Electrical Contracting

## Mechanical Services

### The Range of services offered comprises the following:

- ✔ Complete Heating, Ventilation & Air condition systems
- ✔ Plumbing and Drainage systems
- ✔ Fire protection systems
- ✔ Building Management and control systems
- ✔ GI Duct Fabrication, Metal Fabrication
- ✔ Carpentry & Joinery

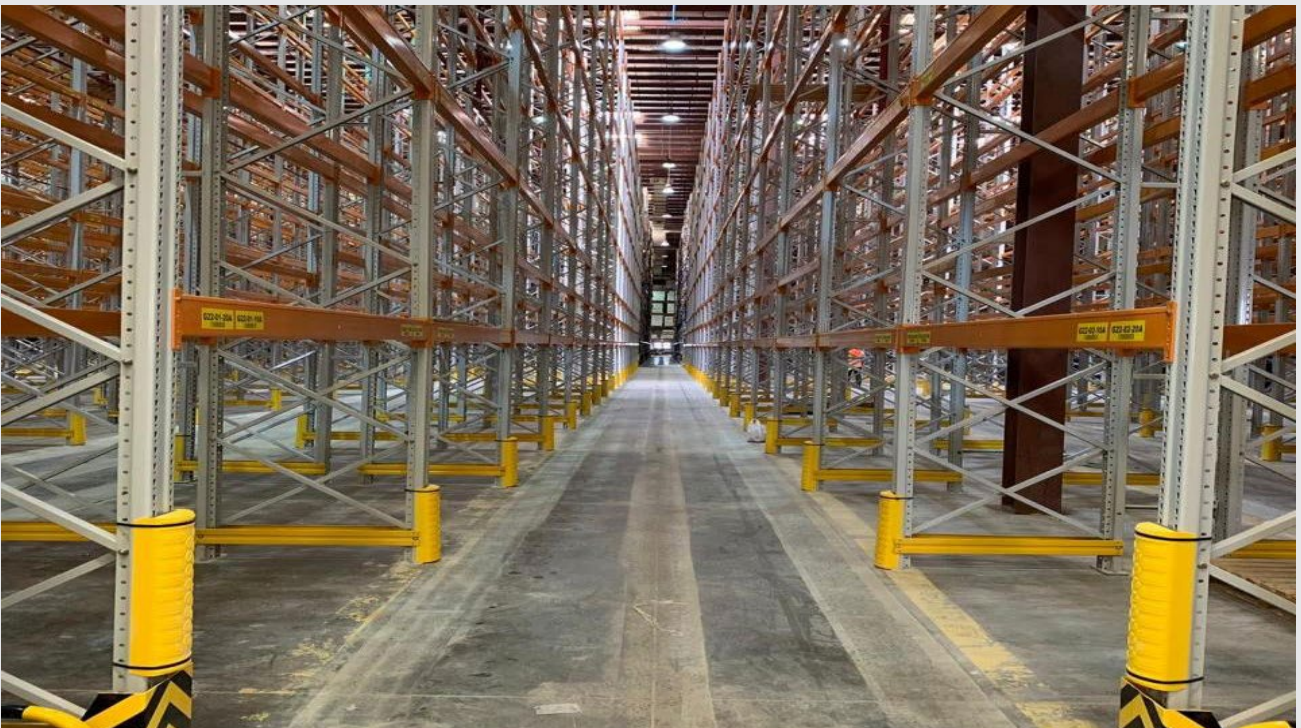

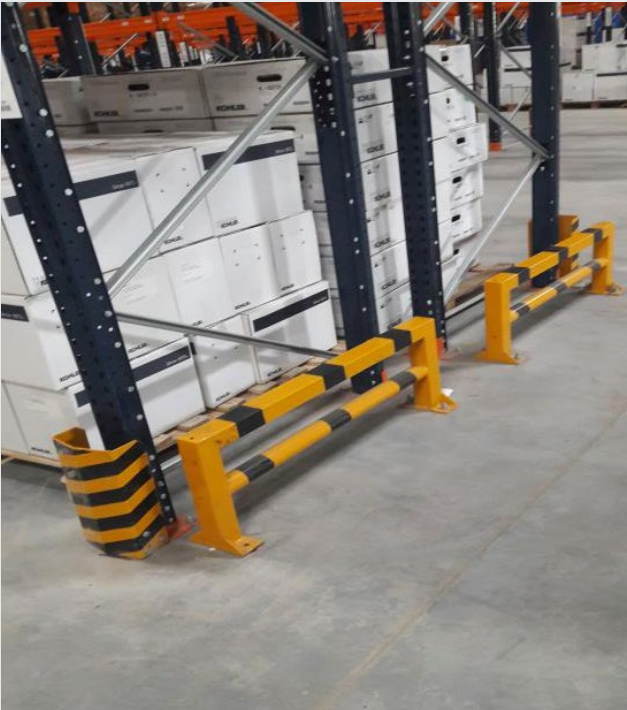

## Electrical Services

- ✔ 11 KV Network Development, 11 KV Reinforcement & Replacement of UGE Cable.
- ✔ Underground UG Services for LV, Underground Construction (Reinforcement & Replacement of Cable for LV)
- ✔ Emergency Maintenance and Operation (for LV & HV)
- ✔ Street Light Installation and Maintenance (SEC)
- ✔ Street Light Commercial Work, New Substation Installation
- ✔ Substation Maintenance Work, Equipment Testing for Substation

# Racking Solution

We design, manufacture and install industrial racking solutions to suit your needs. No matter what product you store or distribute, we ensure the highest efficiency with comprehensive expertise in racking solutions.

# Solar Energy

All across Saudi Arabia, we design, install, and service commercial and industrial solar power systems.

Solar PV is our area of expertise. Our philosophy is to concentrate on just one thing and do it well. We combine a thorough awareness of the local market with a systematic and analytical approach to project development, as well as a business strategy that encourages employee ownership. We believe ourselves to be technology agnostic, constructing custom-designed solutions for our clients utilizing the best components available.

## **Vision**

*Our vision is to embrace and maximize quality work and increase customer satisfaction.*

## Solar Solutions

- ✔ Design team with experience in solar plant design (roof top & ground based), power evacuation and power electronics.
- ✔ Comprehensive installation and commissioning process with real time quantum and measurement reporting using best practices, tools and methodologies.
- ✔ Well defined process and methodology for operation and maintenance of Solar PV Plants

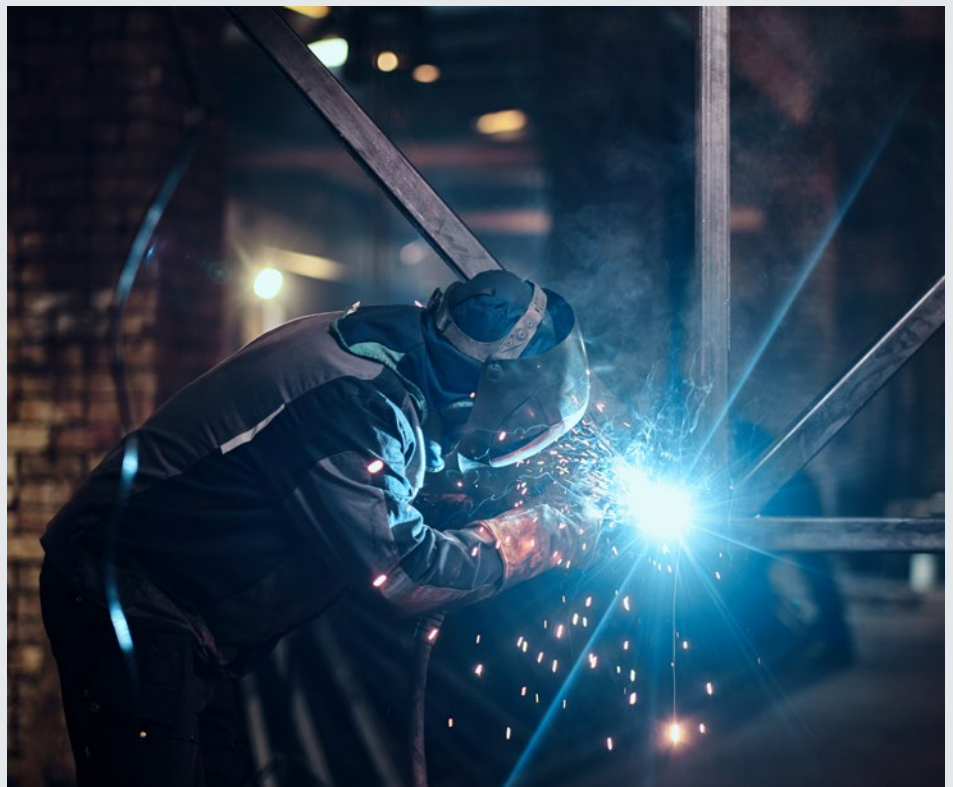

# Fabrication Services

Fabrotech is ideally located at Bahrain, Saudi Arabia and HQ in India. It aims to serve the growing demands of steel industry and allied industries. Fabrotech is fully equipped to undertake jobs in Civil / structural, piping, and equipment's, Tanks, silos, electrical / Instrumentation and EPC projects.

Established with a view to meet the growing demand in tune with the policy of rapid industrialization in the field of petroleum, chemical, petro-chemicals, fertilizer, power generation, commercial building, fit-out projects and allied services. This has widened the scope in auxiliary manufacturing, fabrication and maintenance activities.

Our fabrication shop is equipped with all kinds of engineering facilities. Fabrotech is able to fabricate all types of structural building, structural corridor, trays, and sheet structures welding works including HVAC, green building, Solar Projects for commercial, residential and Industrials projects.

Our company has well experienced team of professionals, Engineers, skilled staff and workmen. Fabrotech has a policy of customer first approach and delivers the products and services as desired by the customer. Every effort will be made to deliver the services/products as per customer requirements.

# Motor & Machineries Repair Services

Our motor & machinery repair service is designed to help you dismantle, rewind and reassemble motors. We can offer turnkey solutions for new workshop installations or one off machines to improve your existing facility.

# Project Work

**Building Construction**

**Solar EPC Projects**

**Road & Highway / storm drain and drainages**

**Transmission Tower/ Telecommunication Tower**

**Elevated water tank tower**

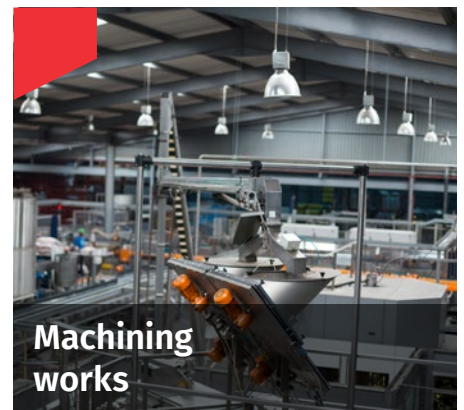

**Warehouse & Heavy duty racking solution**

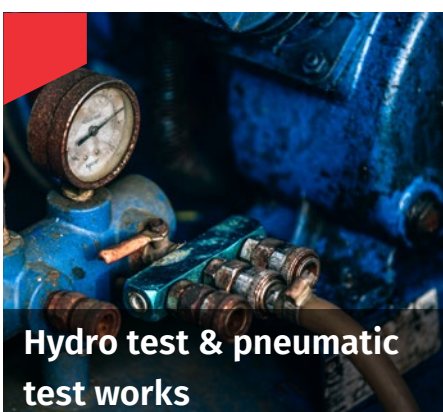

**Steel structural erection work**

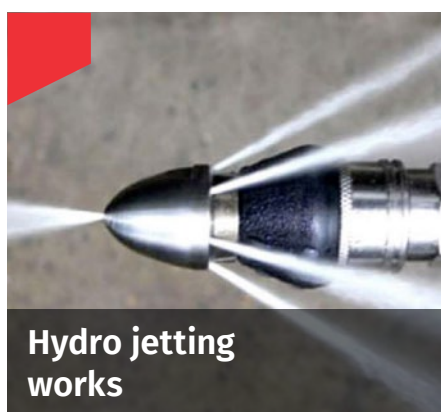

**Piping erection works**

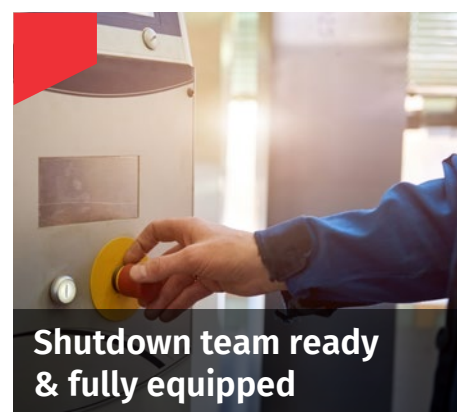

**Machining works**

**Hydro test & pneumatic test works**

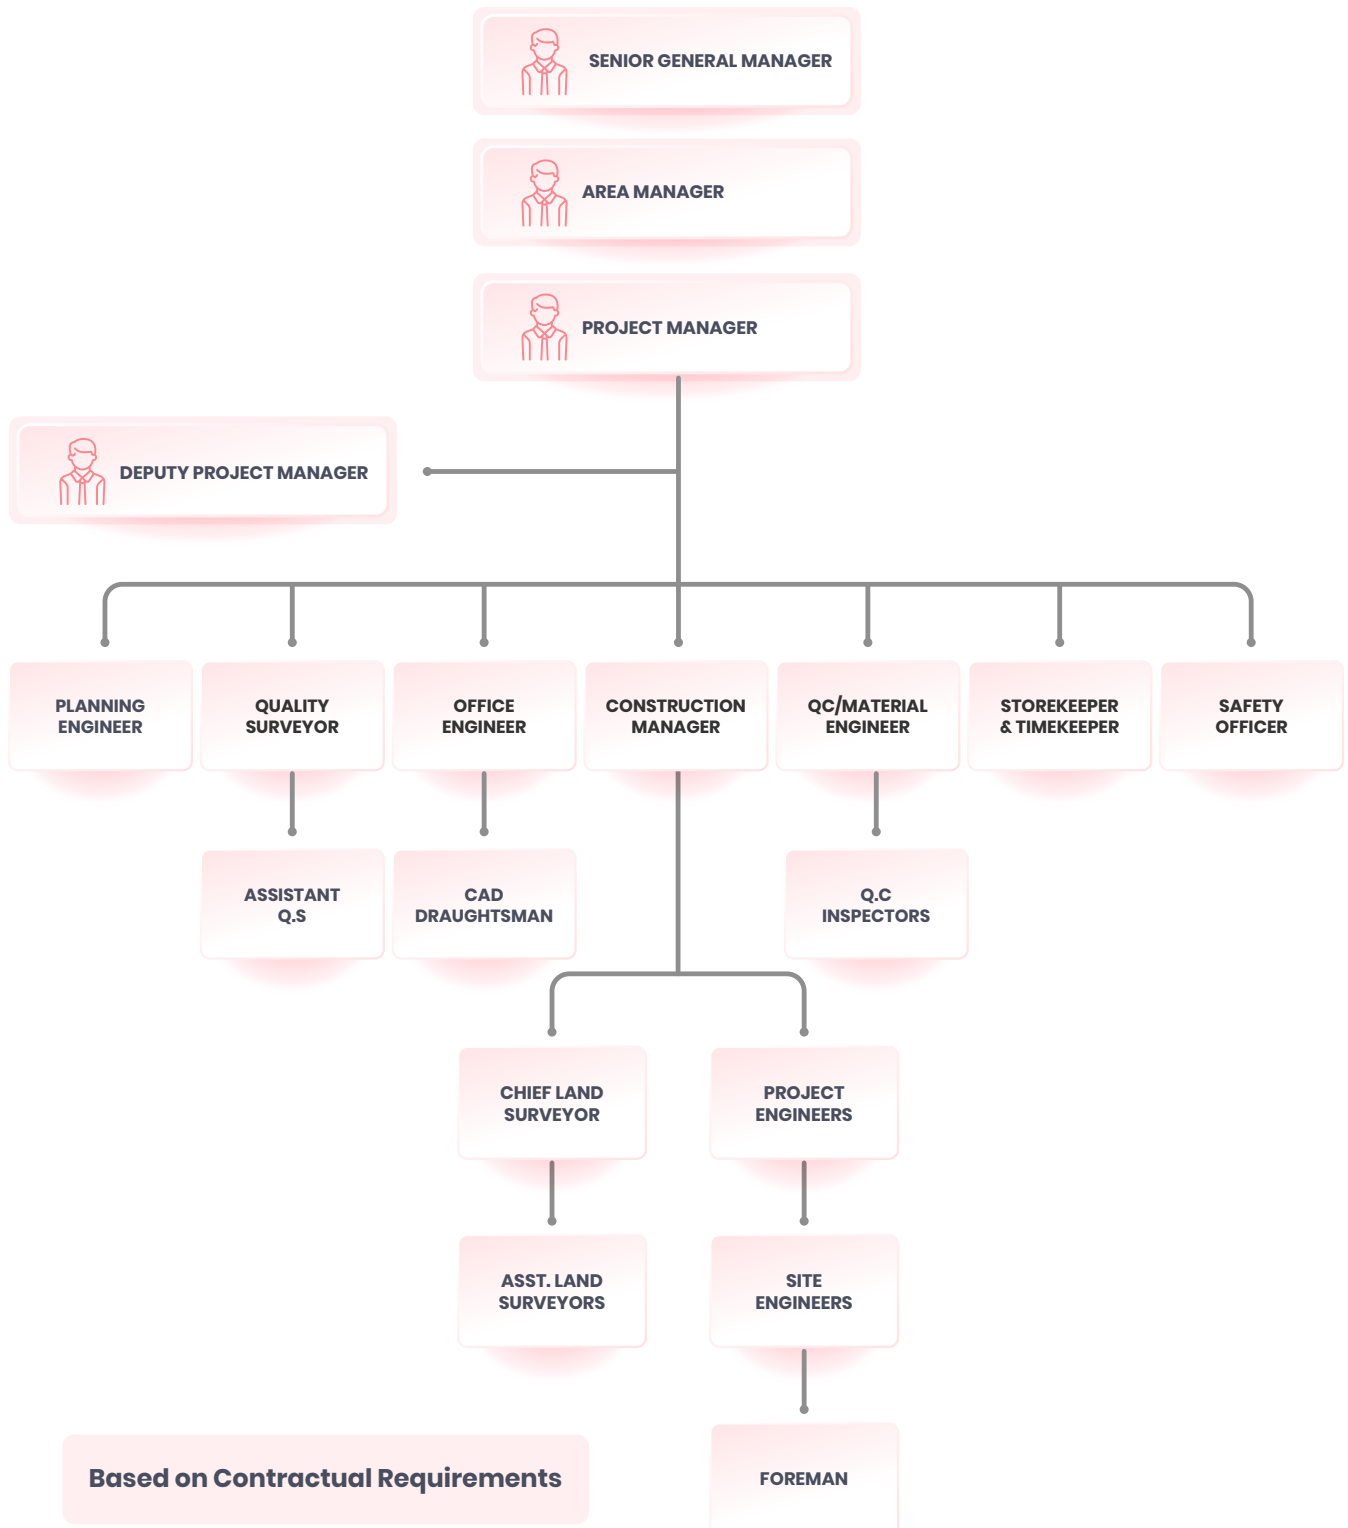

**Hydro jetting works**

**Shutdown team ready & fully equipped**

# Organization Chart

## Our Mission

Fabrotech is committed to provide reliable & professional services to our valuable clients & to be supporting to local businesses within environment friendly.

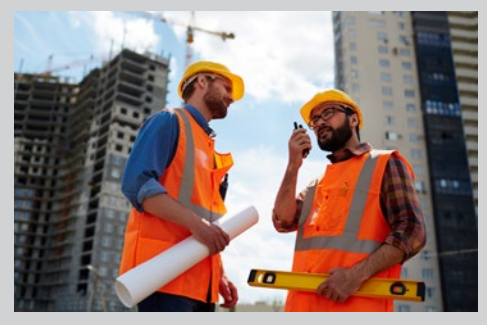

## Our Vision

To embrace and maximize the Vision sustainable opportunities within our areas of expertise throughout region and countries of our the existence, driven by our aim of maximizing value for our stakeholders and clients

# Our Core Value

## Expertise

Fabrotech has developed an experienced team, is professionalized in the fields of the Company's needs, and is well versed in immaculate work.

## Commitment

Acknowledgment of its project from beginning to end; energetically igniting others to enact. Treat colleagues, customers, suppliers, and the community with great respect.

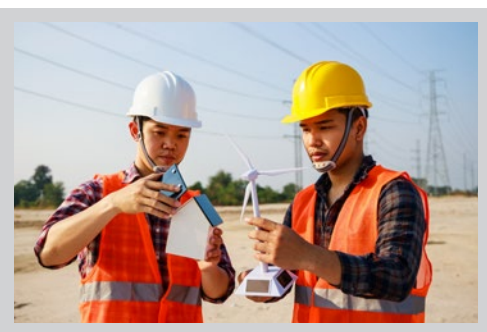

## Versatility

Fabrotech considers Quality as a dominant factor which in return leads to the satisfaction of our client. The services provided by us are strictly adhering to the quality control measures.

## Quality Assurance

Fabrotech considers Quality as a dominant factor which in return leads to satisfaction of our client. The services provided by us are strictly adhering to the quality control measures.

## Unique Approach

The uniqueness of our liberation, sustenance, and our services is what makes us Specialists in our sector. Fabrotech uniquely executes all projects with an approach to quality results

# Quality, Health, Safety & Environment (QHSE) Policy

Fabrotech has its own QHSE policies. The main goal of our HSE policies is to have “zero occurrences” in the project area. Throughout the construction process, our trained and experienced HSE staff ensures the implementation of QHSE policies.

## The following are the priorities and fundamentals for implementing HSE policies:

- ✔ Safety of personnel throughout working operations.
- ✔ Health of workers, clients, subcontractors, suppliers, etc.
- ✔ Reducing the impact of its operations on the environment.
- ✔ Compliance with the provisions of relevant legislation.
- ✔ Keeping the authorities and the general public fully informed.

## To fulfil our responsibilities, we follow the following morals on a regular basis at all locations:

- ✔ Set HSE performance goals, evaluate the results, and review utilising an effective management system to improve processes on a regular basis.
- ✔ Ensure that all actions have a low environmental impact.
- ✔ Reduce the environmental impact through preventing pollution, reducing natural resource consumption and emissions, and reducing and recycling trash.
- ✔ Regularly review and re-implement safety systems and environmental assessments.
- ✔ Audits, assessments, and other methods of quality assurance and quality control will be used to review and verify performance on a regular basis.
- ✔ Maintain positive relationships with authorities, clients, and other customers, and communicate HSE policies, standards, programmes, and performance in an open and transparent way.

## Our Ethics

Fabrotech has a key presence in the industrial sector, and wherever we operate, we strive to meet the highest ethical standards while providing the best possible service without harming, injuring, or damaging any of the projects we manage. As a corporation, we take the initiative and assume responsibility for ensuring that we work with moral standards and maintain our integrity.

## Installing Ethical Behavior

Fabrotech ensures an immune response from employees and staff. Our ideals will embody all we do, and we will always strive to improve our compliance programme and strengthen the administration surrounding our ethical business practices. With the power of words and actions, we handle professionalism so that as a firm, we can provide a safe and efficient atmosphere.

## Code of Conduct

We revisited our ongoing review of our Code of Conduct in the context of trying to strengthen the compliance function, with the goal of linking it to the full range of Fabrotech policies, standards, and processes, making it easier to understand, and using it as a framework to facilitate and inform the way decisions are made throughout the business.

# ISO Certification

ISO certification ensures that a company's management system, manufacturing process, service, or documentation procedure meets all standards and quality assurance requirements. We have the most experienced specialists who will make your certification process as simple as possible. We recognise each organization's specific requirements and work with them to obtain certification and maintain compliance with ISO rules.

ISO 9001

The ISO 9001 standard specifies the requirements for a quality management system. To meet legal and requirements, Fabrotech is implementing and complying with ISO 9001:2008 along with other necessary international standards. The company's policy is to provide timely products and services to customers while maintaining quality in accordance with contract criteria.

ISO 14001

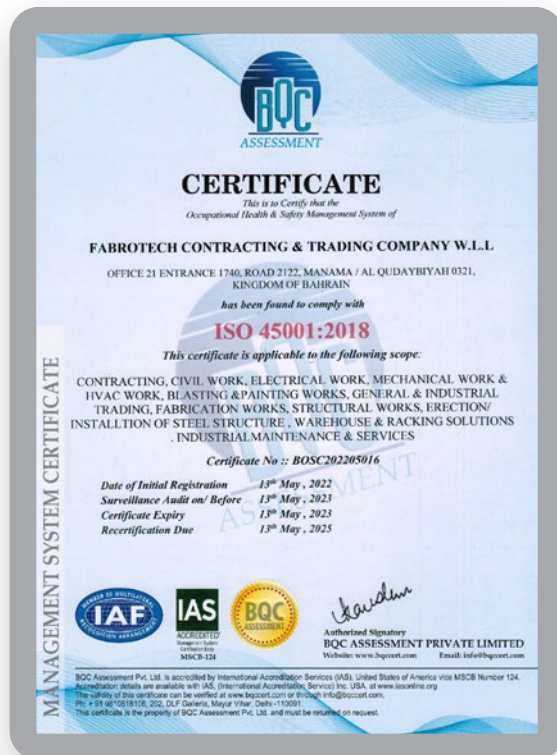

The ISO 14001 standard allows a company to make use of available resources rather than seeking an alternative that may result in a hazardous environment. This standard allows a company to work efficiently while adhering to an environmental protection policy, resulting in a safe and harmonious environment. Our organisation takes care of all the necessary precautions that must be done in accordance with the regulations.

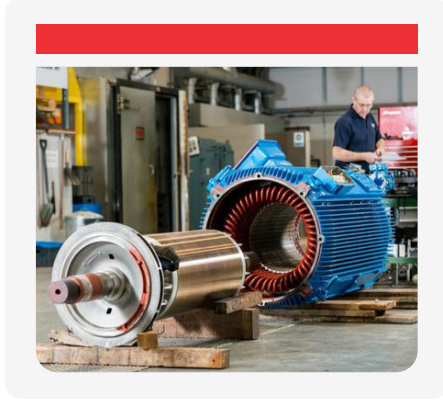

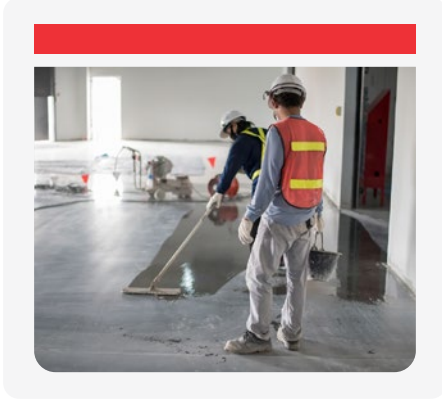

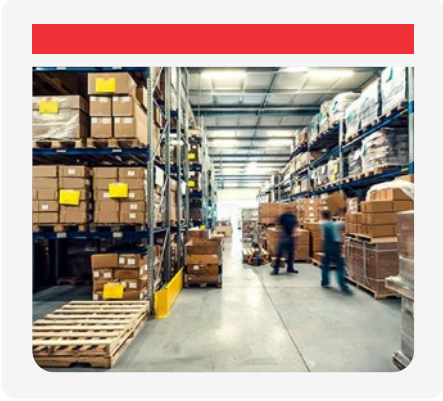

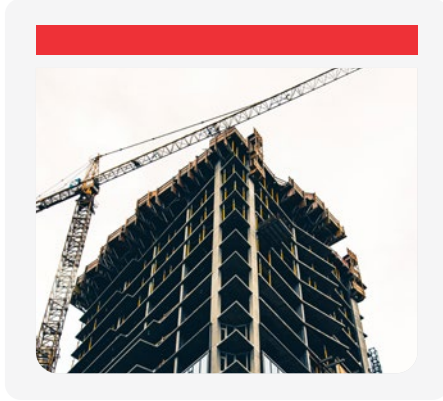

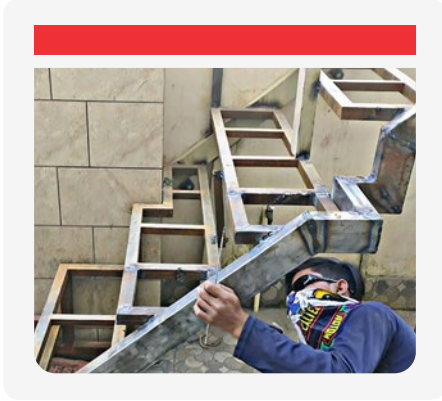

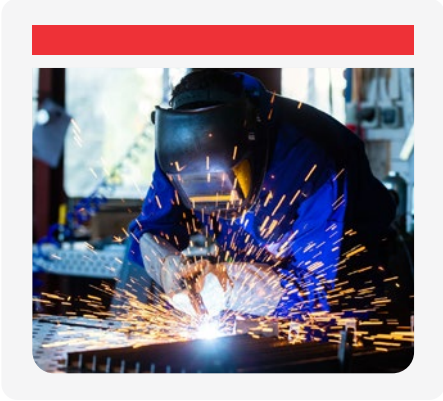

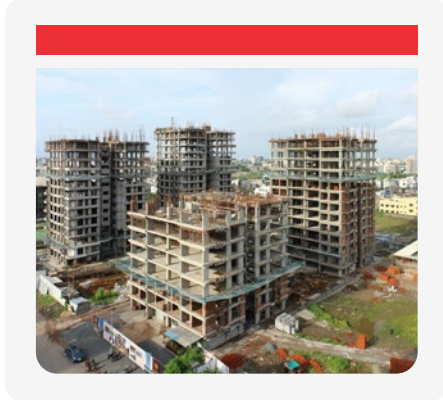

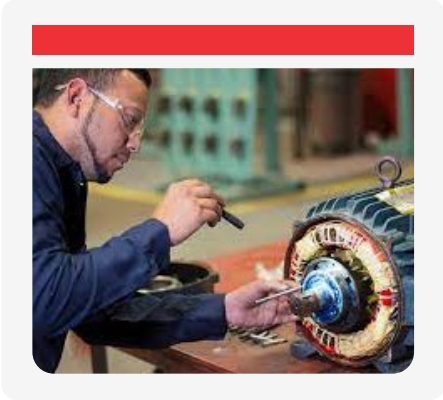

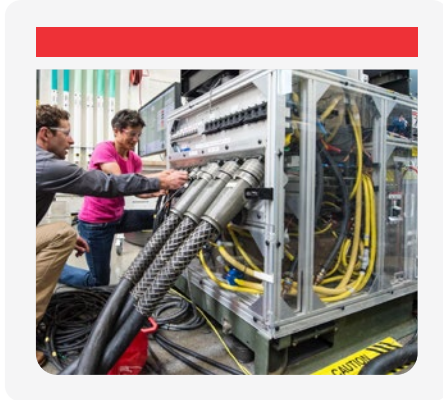

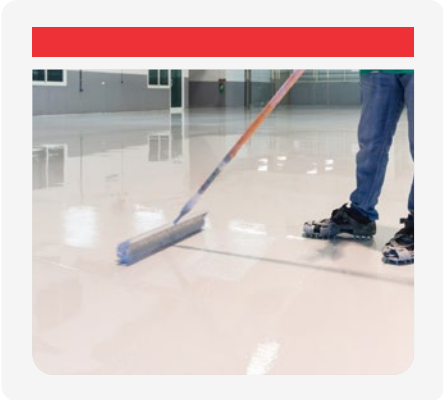

ISO 45001

ISO 45001 requires an occupational health and safety (OH&S) management system, and gives guidance for its use, to enable organisations to provide safe and healthy workplaces by preventing work-related injury and ill health, as well as by improving its performance.

# ISO Certification

# Our Project's

# Completed Milestones

Fabrication and Installation of Piping System	Arabian Cement Co. Ltd
Manufacturing and Installation of Storage Tank roof	Arabian Cement Co. Ltd
Fabrication & Installation Lime Stone Feed Bin	Arabian Cement Co. Ltd
Fabrication of Steel Structure and Machining work for Shoaiba Power Plant	Alstom Power
Fabrication and Installation of Steel Structure & Gate at Palace of HRH Prince Ahmed Bin Abdulaziz	Abunayyan Trading Corp.
Fabrication of Steel Structure for Al Lith Shrimps Farm Project	National Prawn Co.
Fabrication and Installation of 500 m <sup>3</sup> Fuel Storage	Abunayyan Trading Corp.
Fabrication of Steel Structure for Yanpet Expansion Project, Yanbu	Consolidated Contractors Co.
Fabrication and Installation of Steel Structure for new Beverage Factory	Abuljadayel Est.
Inter-jacking Stations, Jack Frames, Gantry Cranes, Concrete Molds (Big sizes), Cranes Girders, Cement Silos, Steel Structures for Bucket Conveyors, etc.	Abuljadayel Est.
Fabrication & Installation of Stainless Steel Tank & Pipe Line	Kwality Ice Cream Factory.
Fabrication of Stainless Steel Wash Water Tank	United Sugar Company
Fabrication of Structural Steel work for Shoaiba Jeddah Water Pipe Line Project	Tekfen Construction
Fabrication of Casing for Bucket Elevator, Duba Cement Factory- 700 Tons	Kawasaki
Fabrication and erection of structural steel for Loading platforms	Shell Lubricant
Maintenance of Storage Tank	Shell Lubricant
Prefabrication of piping spool and steel constructions for Rabigh steam power plant	Mitsubishi Heavy Industries
Additional Platforms, Handrails, Steel Structures, Checker Plates, Lime Stone Slurry Tank Bottom Plate. Support Structures etc.	Mitsubishi Heavy Industries
Repairing and maintenance service and stainless Steel piping work.	Arabian Vehides & Trucks Industry
Machining and repairing work	ABV Rock Group
Manufacturing of embedded steel for Yanbu Cement Plant- 200 Tons	Teamwork Saudi Arabia Ltd.
Service and repairing of Gas Turbine part	Delta Mechanic
Installing of processing piping	Coca Cola Bottling Company
Fabricating of steel construction and stainless steel Hopper	Saudi Chemical
Fabrication and erection of conveyor gantry and steel structure- 300 Tons	Mohamood Saeed Glass Industry
Manufacturing of structural steel and embedded steel- 200 Tons	Saudi Bauer Company
Stainless steel work and services	Y.A. Algoosaibi- Tetra pak, Saudia
Stainless steel work and services	Saudi Ice Cream Factory
Machining work and maintenance	Al Sorayai Carpet Factory
Machining work and maintenance	United Carton Industries
Machining work and maintenance	Watania Paper Product
Fabrication and Installation of Trench	Saudi Trading & Services
Machining Works	National Food Industries
